
CORDLESS CIRCUIT TESTER; HEAVY DUTY

Information

- Designed to check DC voltage on cars, LGVs, Motorbike and much more ranging from 3-24V.
- No need for a ground connections.
- Loud audible sound with dual LED indicators.
- Heavy duty build with stainless steel.
- Inbuilt 3.6V lithium battery ensuring long lasting use.
- Due to the compact size it can be used in tight and awkward places.

Precautions

Always wear safety gear.
Working in a clean and safe environment.
This task should be carried out by trained personnel.
Make sure to consult manufacturers manual.
Do NOT use with air tools.

Features

Precautions

- Using diagnostic equipment on engines can cause risks of loose debris and dust, always wear safety goggles for protection.
- Only use this tool for intended purpose.
- Tool has a running battery life of approximately 100hrs
- Battery is un-replaceable.
- Do not use on air bags.

Before each use, first test the Circuit Tester on a working 6V or 12V or 24V source so you are sure it works.

Instructions

- 1.** Remove the protective cover from the probe before starting work, be careful as this probe can be sharp.
- 2.** Whilst holding the circuit tester, hold the metal clip.
- 3.** Make the end of the probe meet with the end of the fuse/battery etc.
- 4.** Hold the other end/side of item being tested so that the circuit is complete.
- 5.** The circuit tester will bleep and light up if 3-24v DC is detected.

- the **red** light indicates positive polarity

- the **green** light indicates negative polarity

If there is no light shown this indicates there is no electricity flowing through the circuit and re-pairing or replacement might be needed.

Warranty

If you are unsure on how to use the item please contact us. If it were to fail due to a manufacturing fault or poor workmanship we will repair or replace it. Please contact your local dealer in the event you need to send the item back. You can also make a repair/replacement request on our website and download & complete the form online. Normal wear and tear along with misuse will void any warranty. Consumables are not covered under warranty.
