

Master Compact Wheel Bearing Set 62-66-72-78-82-85 MM

Information

- The GEN 2 type of wheel bearing is predominantly fitted to models from Ford, Land Rover, Mazda, VW Group & Volvo.
- Includes a variety of different diameter tool kits covering a range of sizes to suit the different GEN2 bearings used by vehicle manufacturers.
- Designed to distribute pressing force evenly through the outer bearing race and also allows for the suspension leg to remain in-situ on the vehicle when fitting new bearings.
- Sizes: 62 / 66 / 72 / 78 / 82 / 85mm

Precautions

- Always wear safety gear.
- Working in a clean and safe environment.
- This task should be carried out by trained personnel.
- Make sure to consult manufacturers manual.
- Do NOT use with air tools.

85mm Kit - VW Multivan, Touareg, Transporter (Front / Rear).

Replacement spindle available: 10100-WW.

- Mount the dismantling shells onto the wheel bearing housing with use of two screws.

- Continue to hammer the bolts carefully into the mounting plate whilst making sure the bolts are aligned with the wheel hubs circle.

- During the disassembly make sure the bolts press against the mounting shells through the wheel stud holes.

- Then attach the dismantling plate sideways to the drive shaft and lead the spindle with the attached mounting plate from the front through the wheel hub and the dismantling plate.

- Pull out the worn out wheel hub with the spindle and the spindle nut.

Warranty

If you are unsure on how to use the item please contact us. If it were to fail due to a manufacturing fault or poor workmanship we will repair or replace it. Please contact your local dealer in the event you need to send the item back. You can also make a repair/replacement request on our website and download & complete the form online. Normal wear and tear along with misuse will void any warranty. Consumables are not covered under warranty.
