

STRUT MATE™ JACK-MOUNTED STRUT SUPPORTER

3400-WW

Supportive Tool:

- Designed to support and hold the strut when it is mounted on a vehicle.

Prevents the Strut from moving:

- It prevents the strut from moving downwards when
- it is dismantled from the suspension arm.

Highly Efficient Solution:

- Provides a highly efficient solution for supporting and
- holding the strut in place while working on the vehicle.

Can be used with our 997-WW:

- To be used in conjunction with a transmission jack.
