Universal Press Support Stacks

Information

- Set of 3 specially innovated Press Block Stacks.
- Designed to provide an efficient and effective quick solution to assist in the pressing & removal of wheel bearings & housings; working in conjunction with the Hydraulic Press.
- The unlevel design of wheel bearing housings/arms make it extremely difficult in pressing new bearings in. Pressing them in level is almost impossible. The WELZH innovative design with precision cut outs allows for superior pressing in almost all wheel bearings housing from all manufacturers.

Precautions

- Always wear safety gear.
- Working in a clean and safe environment.
- This task should be carried out by trained personnel.
- Make sure to consult manufacturers manual.
- Do NOT use with air tools.
